

# **Air Vehicle Operator**

**Location:** Fayetteville, NC / OCONUS

## **Job Summary**

Titan Echelon is seeking an Air Vehicle Operator to join our Flight Operations team. This individual will function as Pilot in Command (PIC) or Mission Commander on unmanned aircraft for a Department of Defense customer.

## **Duties and Responsibilities**

- Acts as Pilot in Command (PIC) of Unmanned Aircraft System (UAS).
- Provide Mission Coordinator/Commander support to the team when not acting as PIC.
- Primarily supports higher tier, longer endurance systems, driven by national or theater level customers.
- Demonstrates the ability to perform mission planning and coordination activities under varying airspace conditions.
- Must maintain a broad and up-to-date situational awareness of current mission operations; quickly gain understanding of current mission target environments and associated dynamics; and be familiar with operational methods and infrastructure.
- Understands government defense industry policies and procedures related to operating aircraft and supporting customer requirements.
- Meets/exceeds minimum performance standards as outlines in the master training syllabuses.
- Formulates training programs, lesson plans and schedules, based on knowledge of identified training needs, systems requirements or service needs.

## **Qualifications**

- Must be a U.S. Citizen with valid US passport
- Secret security clearance.
- FAA private pilot's license with an instrument rating.
- FAA Class II Medical Certificate
- Bachelor's degree or equivalent military experience.
- 4+ years of prior qualified Air Vehicle Operator, instructor, evaluator, and/or launch and recovery experience.
- 4+ years of operational experience.
- Experience with Piccolo Command Center or similar products.

- Must have the ability to travel worldwide for at least 50% of the time.
- Ability to professionally interface with numerous levels of management, customers, and peers.
- The ability to work extended hours and/or shift work.
- The ability to work as a team to accomplish mission requirements.
